

# Introduction to Fire Safety

## Course Profile

This course is a short introduction for any staff or volunteers to understand commonsense measures to prevent fires and how to react to a fire in a building

### Duration

3 hours

### Who is this course suitable for?

The Fire Safety Order 2005 requires that all staff are able to protect themselves and others in the event of fire or how to get to safety if evacuation is required

### Certification

This course leads to the award of a Fire Safety Awareness certificate on successful completion and achieves Common Infection Framework Standard 3.3

There is no test at the end because your Trainer will use continuous assessment and coaching techniques throughout the course

### What does the course cover?

- ❖ Common causes of fire & explosion
- ❖ Prevention of fire & explosion
- ❖ Warning systems
